My Portfolio: https://shah-1510.github.io/Portfolio/

Professional Summary

I am a software engineering student, a fast learner, and a tech enthusiast who is eager to learn and prepare for challenges by being flexible and efficient, both as part of a team and independently to achieve a set of goals that will help in being recognized as a leading individual.

Project Experience

- **Power BI Dashboard created on Global Sales Data**
  (Use Excel, Power BI, and Descriptive Analytics to prepare, analyze and visualize the data)
- **Analyze Company Information and create a Performance Dashboard using Tableau**
  (Use Excel, Tableau, and Descriptive Analytics to prepare, analyze and visualize the data)
- **Rock vs Mine Predicting using Machine Learning & Deep Learning Algorithm**
  (Data Analysis, Data Cleaning, Visualization, Data modeling, Pre-processing, Machine Learning Algorithms)
  Libraries (Pandas, Numpy, Matplotlib, Keras, Tensor flow, Sklearn)
- **Heart Disease Prediction using Machine Learning Algorithms**
  (Data Analysis, Data Cleaning, Visualization, Data modeling, Pre-processing, Machine Learning Algorithms)
  Libraries (Pandas, Numpy, Matplotlib, Seaborn, Sklearn)
- **Employee Retention Prediction in Company using Machine Learning Algorithms**
  (Data Analysis, Data Cleaning, Visualization, Data modeling, Pre-processing, Machine Learning Algorithms)
  Libraries (Pandas, Numpy, Matplotlib, Seaborn, Keras, Sklearn)
- **Real Estate (Realty) Price Prediction using Machine Learning Algorithms**
  (Data Analysis, Data Cleaning, Visualization, Data modeling, Pre-processing, Machine Learning Algorithms)
  (Frontend Using Html, CSS, JavaScript, and for Backend used Flask)

My Portfolio: https://shah-1510.github.io/Portfolio/

Education

- **Bachelors in Software Engineering** 09/2019 – Present
  Bahria University Karachi CGPA – 3.62

Achievements

- ***Data Science & Business Analytics Virtual Internship*** ***05*/2022 – 06/2022**

The Sparks Foundation

Perform:

- **Performing Analysis on Iris Data Set using Machine Learning Algorithm**
  (Data Analysis, Data Cleaning, Data Visualization, Data modeling, Pre-processing, Machine Learning Algorithms)
  Libraries (Pandas, Numpy, Matplotlib, Seaborn, pydot, Sklearn)

- ***Data Analytics Virtual Internship*** **03/2022 – 04/2022**

Suven Consultants & Pvt. Ltd

Perform:

- **Performing Analysis of Meteorological Data using Machine Learning Algorithm**
  (Data Analysis, Data Cleaning, Data Visualization, Data modeling, Pre-processing, Machine Learning Algorithms)
  Libraries (Pandas, Numpy, Matplotlib, Sklearn)
- **Recognizing Handwritten Digits with scikit-learn using Machine Learning Algorithm**
  Data Analysis, Data Visualization, Data modeling), Libraries (Pandas, Matplotlib, Sklearn, svm)

- ***Data Analytics Virtual Internship Program*** **02/2022 – 03/2022**

KPMG [Forage]

Perform:

- *Data Quality Issues.*
- *Data Insights Using different approaches such as data distributions, feature engineering, data transformations, and modeling.*
- *Data Insights, and presentations prepared using Tableau*

Certifications

- Foundations: Data, Data, Everywhere | Google Data Analytics | **Coursera** | June 2022
- Ask Questions to Make Data-Driven Decisions | Google Data Analytics | **Coursera** | June 2022
- Descriptive Statistics | **Great Learning** | June, 2022
- Build and Optimize Data Warehouses with Big Query | **Google Cloud** | May, 2022
- Create ML Models with Big Query ML | Google Cloud | May, 2022
- Exploring Data with Looker | Google Cloud | May, 2022
- Data Science Course| Jawan Pakistan |March, 2022
- Programming Essentials in Python | Cisco Networking Academy| **Open EDG Python institute** | March, 22
- Python Data Structures: Ultimate guide on Data Science | **Bit Degree** | Feb, 2022
- Introduction to HTML & CSS| **Bit Degree** | Sept, 2021

Skills

- **Programming Languages***: Python, C#*
- **Databases***: SQL, Flask*
- **ML/DS/AI Toolkit:** *Jupyter Notebook/colab, Pandas, SciKit-Learn, NumPy, SciPy, Keras, Seaborn, Matplotlib,Selenium, Tensorflow, BeautifulSoup*
- **Project Management** *(SRS, Vision & Scope Documents, Reports, Proposals, ERD, DFD, Use cases, Class Diagram, Activity Diagram, Prototypes, SDLC)*
- **Web Technologies:** *HTML, CSS, Web Scrapping*
- **Data Visualization:** *Power BI, Tableau, KNIME, Looker*
- **Tools:** *Visual Studio, VS Code, Microsoft Excel, GitHub, Balsamiq, MS Visio*

Interest

- **Data Analytics**
- **Machine Learning**
- **Business Analyst**
